ABSTRACT

This Technical Whitepaper gives a brief & general outline about the

- usability of **new digital assets as a means of payments for** products & services
- how the public can participate, earn them & rewards available through the ecosystems associated with the **digital assets**
- the technical information of the digital assets, and how they are designed to provide a better experience for cryptocurrency users.

The blockchain technology is still very flourishing and in its early phases, living through an open frontier similar to that of the Internet in the early 1990s. However, we at **The RedGEM Technologies Inc.** accept as true, that the blockchain technology, as a tool of distributed consensus, will become the main method to store, trade, and or transact digital and tangible assets in the imminent future. The payment industry is rapidly changing and we are adopting. To serve you with the most accurate information, we advise you to visit <https://redgem.com> for an up-to-date development and roll-out plan of our projects.

RedGEM Classic Token (and RedGEM Token) is a Cryptocurrency based on the Binance Smart Chain which belongs to a class of BEP-20 token standard. BEP-20 is a technical standard (rules) used for smart contracts on the Binance Smart Chain for implementing tokens.

RedGEM Classic Token (and RedGEM Token) is a consumer-oriented cryptocurrency launched & supported by **The RedGEM Technologies Inc.** They are stored on computers and transferred between digital “wallets-profile”. It offers maximum security & convenience. The Tokens wallets uses state-of-the-art wallet technology powered by Binance Smart Chain Technology.

THE RedGEM TOKENS (RedT & RedC) ENABLES:

-  Real-time, Secure, Instant & Nearly Free Payment Method for Products Plus Services
-  Create New Value Flows, Grow The Digital Commons & Currency Exchange
-  Equity Ownership & Voting Right in Our Ecosystem
-  Develop Resilient Collaboration Infrastructure That Respects Users' Freedoms

INTRODUCTION

ABOUT US

The RedGEM Technologies Inc. (TRT Inc.)
